

# Do More with **LE**ss

INCREASE UPTIME & PROFITS WITH  
**PYROSHIELD** FOR BALL MILLS & KILNS

## LUBRICANTS

Save time and money by protecting your equipment with LE's Pyroshield® open gear lubricant, a long-lasting synthetic solution for high-load, heavy-shock applications. High film strength allows Pyroshield to redistribute the load over the gear's surface.

Available as a grease, aerosol or oil, Pyroshield's powerful formulation includes EP additives and Almasol®, LE's exclusive solid wear-reducing additive. Converting is simple, with no production interruption, and Pyroshield is clear during use, so you can inspect gears without downtime.

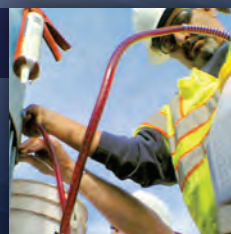

## RELIABILITY

LE is a one-stop shop for reliability solutions, including centralized lube systems.

## SUPPORT & SERVICE

LE's trained and certified consultants are onsite with you to educate, plan and assist.

If you'd like to experience **LE**ss downtime, **LE**ss maintenance time and **LE**ss need to replace parts, act now. Visit [www.LElubricants.com/open-gear-lubricants.html](http://www.LElubricants.com/open-gear-lubricants.html) to learn more.
