

ON TARGET LUBRICANTS

EQUIPOWER HYDRAULIC OIL

Reliable hydraulic performance depends on fluid choice; it's not just about viscosity grade.

LE's line of Equipower™ Hydraulic Oils are engineered to ensure smooth performance and superior protection for your equipment.

Important considerations when choosing hydraulic oil:

- | | |
|-----------------------------------|------------------------|
| ✓ Ability to maintain viscosity | ✓ Detergency |
| ✓ Thermal and oxidative stability | ✓ Demulsibility |
| ✓ Friction reduction capability | ✓ Hydrolytic stability |
| ✓ Nonfoaming characteristics | |
