

# ON TARGET LUBRICANTS

***Enhanced lubricants from Lubrication Engineers – made of highly refined or synthetic base oils and proprietary additives – vastly outperform conventional oils and greases in nearly any industrial or automotive application.***

Investing in better performing lubricants – formulated for specific applications – can make your plant more reliable by protecting equipment and keeping it running longer and more efficiently. LE's comprehensive line of lubricants will return the lubricant price many times over by reducing downtime and maintenance costs.

For more about LE's high-performance lubricants, contact us or visit our website today.
