

# Problem Solved

## WIRE ROPE LUBRICATION

**Problem:** Manual lubrication of wire ropes with drip, brush or spray systems is slow, labor-intensive and messy, leading to problems with efficiency, safety and the environment.

**Solution:** Eliminate these problems and increase the reliability and longevity of your wire rope by using the Viper Wire Rope Lubricator and LE's high-performance Wirelife® lubricants.

The Viper ensures fast, efficient, thorough lubrication by forcing lubricant under high pressure right through to the core of the wire rope.

**All-inclusive kit makes it easy**

**Ideal for cranes & other wire rope applications**

**Warranty doubles with use of LE grease**

Go to [www.LElubricants.com/viper-wire-rope-lubricator.html](http://www.LElubricants.com/viper-wire-rope-lubricator.html) to find out more about the Viper Wire Rope Lubricator and LE's Wirelife Almasol Coating Grease (available in NLGI 00 and 0 grades). An extremely tacky and water-resistant grease with exceptional penetrating ability, Wirelife Almasol provides EP protection and exceptional corrosion protection, even in underwater applications.
