

# ON TARGET LUBRICANTS

## EASY BAR WITH ALMASOL

**Easy-to-apply melting lube bars  
prevent costly wear in rotary kiln  
& dryer components**

**Proper lubrication is essential to minimize  
wear and lengthen equipment life in  
high-temperature, high-load applications**

Easy Bar® with Almasol® is a patented blend of wear-reducing and extreme pressure lubricants suspended in a solid binder that melts after application. It prevents steel-on-steel contact, without risk of flameups, and takes less time to apply than traditional lubricants.
