PYROSHIELD SYN OPEN GEAR GREASE

**Heavy-Duty Synthetic Grease Provides
Extreme Protection, Lengthens Gear Life**

Large open gears operate under severe conditions. Inferior lubricants can lead to excessive premature wear and breakage, resulting in lost production and other costs.

Using high-performance Pyroshield® Syn Open Gear Grease, our customers have been able to extend gear life, reduce lube consumption and avoid expensive downtime.

For more about LE's high-performance lubricants, contact us or visit our website today.
