

LUBRICATION ENGINEERS, Inc. Uptime HERO

30,000 HRS

Extend Air Compressor Life with Lube Reliability Program

• Xamine™ Oil Analysis

• Multilec® Industrial Oil

In more than 30,000 hours of operation, our air compressor has had no oil change and no lubrication-related downtime. The oil is nearly ageless, providing the same protection today as the day it was added. That's nearly four times longer than the OEM-recommended interval for this compressor. How'd we do it?

We use high-quality industrial oil with proprietary additive and a reliable oil analysis program to ensure extreme uptime, extended oil drains, reduced maintenance labor, reduction of unplanned parts replacement, and energy savings. Our maintenance team is trained on best practices, ensuring success. Read more about our air compressor success story at www.lelubricants.com/air-compressor-lubricants.html and contact us today to get started.
