

LUBRICATION ENGINEERS, Inc. Uptime Hero

Right Lubricant, Right Amount, Right Time – 24/7

Protect equipment. Eliminate contamination. Enhance safety.
One efficient tool does it all – the **Xport™ Single Point Lubricator** from LE.

Let us help you increase uptime and reduce maintenance costs, just like we did. We installed 17 SPLs on our pillow block bearings and electric motors, ensuring a fresh supply of lubricant while machines are running, with no risk of contamination, or of under- or over-greasing. Even better, our employees stay out of unsafe areas. Xport lubricators are cost-effective in all types of equipment, including pumps, fans, blowers and conveyors.
