

Xpert™ Services

Xpert™ Lease to Own

Leasing business equipment & tools preserves capital and provides flexibility.

- Lower upfront expense
- Easier to upgrade equipment
- Flexible terms
- Tax-deductible

Many companies and organizations that LE works with rely on lease financing for the acquisition and use of certain types of equipment such as lube bulk storage systems, filtration systems and other products that are cost prohibitive for them to purchase outright. In response, Lubrication Engineers has incorporated into its service offerings a form of lease-to-own financing to help customers acquire equipment.

LE can help identify a leasing program that provides customers the flexibility needed financially while providing the best quality products and services available throughout the U.S. and internationally.

Program Basics

- Minimum of \$10,000 per unit to qualify (exceptions on case-by-case basis); lube room components that add up to \$10,000 qualify.
- Qualifying products include filtration products, vacuum dehydration units, lube storage rooms.
- Non-qualifying products are considered “consumable,” e.g., breathers, single-point lubricators, lubricants.
- Customers have the option of choosing 2-, 3-, 4- or 5-year lease terms.
- Payment due at signing includes first and last month lease payments.
- Payment due at end of lease period is a 15% buyout.
- Anyone unable to purchase on the buyout has the option to do another lease or turn in the product.
- Freight and tax may be included in the lease.
- Program is for commercial customers only, including LLCs and DBAs.

Xpert™ Lease to Own

Lease Terms

- True lease: Fair market value, 15% purchase option
- All rates are subject to change without notice.
- All leases require two payments in advance.
- Companies must be in business at least two years.
- Rates are subject to credit approval of each applicant.
- Call 800-537-7683 for quotes, lease credit application or any questions about this program.

Purchase vs. Lease Example

Xpel™ Lubricant Bulk Storage Unit (metal)

Purchase Price	Lease Options	
\$24,228	36-month	48-month
	\$815 per month	\$650 per month

Prices shown do not include tax or freight.

Xpel™ Lube Room

Xtract™ Filtration/Vacuum Dehydration
