Xport™ Lubricant Application

Xport™ Battery Powered Grease Gun with Clear Grease Tube

Powerful solution eliminates cross-contamination

It has been estimated that 60 to 80 percent of bearing failures are lubricant-related, including grease cross-contamination. When the wrong grease is applied to a piece of equipment, the resulting problems can be expensive and time-consuming to correct. LE offers its line of Xport™ Clear Grease Guns as a simple, cost-effective reliability solution for industrial operations worldwide to eliminate cross-contamination mistakes.

The convenient battery powered model – the Xport Battery Powered Grease Gun with Clear Grease Tube – is especially useful for lubricating hard-to-reach areas or equipment that requires frequent or large-scale lubrication.

Beneficial Qualities

- Allows 100% visual Identification
- Eliminates cross-contamination
- Enhances existing reliability programs

Clearly Reliable

- Unit's 19.2-volt rechargeable battery provides powerful, efficient grease delivery
- Extra long whip hose conveniently extends into hard-to-reach areas.
- Tubes are made of high-impact, fracture-resistant polycarbonate, capable of withstanding heavy use and high temperatures.
- Tubes fit many standard grease guns, making upgrades of existing guns easy and cost-effective.
- Collars are constructed of durable T6061 aircraft aluminum and will not rust.
- Collars are anodized and available in a variety of colors, perfect for when a secondary method of identification is required, such as lubricant type, application or department.

Xport™ Battery Powered Grease Gun with Clear Grease Tube

Maximum pressure	8,500 psi
Flow rate per minute	4.9 oz (138.9 g)
Power	19.2 volts
Rechargeable battery packs	Two 1,500-mAh
Battery charger	110- or 220-volt version; 1 hour charging cycle
Whip hose	30 inches
Grease cartridge	Holds 14 ½ oz
Recommended for grease up to	NLGI 2
Multiple loading	Via cartridge, suction or bulk
NPT threads	1/8 inch
Air bleeder valve	
Hard plastic storage case	(pictured)
Case pack quantity	1
Warranty	1 year

Xport™ Clear Grease Tubes

- Available for purchase separately
- High-impact, fracture-resistant polycarbonate
- Tube thread pattern: 2.280-16 UNS-non-standard
- Fit many common grease gun models, including:
 - Lincoln®, Alemite® and Plews® guns
 - Alemite** Model Series 500, 590, 525
 - Lincoln 1133, 1132, 1134*, 1142, 1145, 1147, 1148
 - Zeeline 444, 610, 613, 619, 620, HD4, HD4A
- Durable T6061 aircraft aluminum collars
- Variety of collar colors available for secondary identification, including: silver, gold, purple, blue, black, red, green

Clear Grease Tubes with Color Options

*May not fit with older 1134 models.

**Physical confirmation of fit will be necessary.

Xport™ Lock-On Grease Coupler

Makes greasing tasks easy, clean, safe & fast!

This optional accessory for LE's Clear Grease Guns is a durable jaws-free device that eases grease fitting coupling and uncoupling. It includes five retaining balls to ensure a proper seal between fitting and pump.

- Carbon and stainless steel components
- Smooth push mechanism easily locks coupler to grease fitting
- Max. pressure: 10,000 psi (700 bar)
- Weight: 0.09 pounds (40 g)
- Inlet thread: 1/8" NPT female
