

Product Information

Xtract™ Filtration

Xtract™ Bag Filters

Excellent Pre-Filtration Solution To Catch Large Particulates

Bag filters are excellent pre-filtration solutions to catch large, harmful particulates that would otherwise damage or quickly plug primary filters.

Key Benefits

- High solids-retention capacity
- Compatible with most fluids

Bag Filters

Standard Features

- Polypropylene (PPE) material
- Glazed surface to prevent fabric fibers from entering media
- Maximum temperature capacity of 135°C (275°F)
- Compatible with most fluids except those that are strong alkaline or acidic
- Efficiency of 85 percent at stated micron rating
- Size 1: 7.5-inch diameter x 16-inch length
